Development of the game

Our young participants were the real stars in the development of the Dali4Youth Digital Art Game. They shared their ideas on how the game should look and feel and what the story should be. They even came up with cool characters, each with their own personality. They worked especially hard to answer all the questions about the digital art, which was no easy task. So it's fair to say that they played a big part in making this game so fantastic!
